FRANCHISE COACHING

Three success factors for franchisors are “**right business, right location, right person**”

By hiring franchisees, strong chains pay attention, weak chains do not, they sell to anyone

One more success factor is essential to franchisees: “**loved business**”

If the owner don't love the job, won't dedicate himself, can't be succesful in the business

The major **risk** is the franchisee himself.

We interview the entrepreneur, understand his **character** and **needs**, measure with **F&M factor**

test his **risk level**, evaluate the **agreement**, score his **compatibility** to each alternative brand.

The candidate franchisee decides which alternative to choose.

HOW TO CHOOSE

International franchises are **rigid**, if they are not suitable to local conditions, they often fail

Local brands are **not institutional** yet, their success depend on the founder

Existing sales, profits, conditions build no warranty, they may **change dramatically** in the future

One should know the owner of the chain, understand his **intention** and **ability** to manage the chain

WHY TO BUY FROM F&M

CLASSIFICATION OF FRANCHISEES

F&M advise franchisees according to their motive, needs, expectation, experience, success chance, and what kind of investment to do.

We categorise franchisees into three risk levels.

“**wulfs**” who know the business and don’t pay for the brand;

“**lambs**” who pay for the brand, work hard, obey rules, dedicate themselves;

“**birds**” who are not ready for the business venture, but insist to invest.

We do not sell to wulfs and birds, we find lambs, measure their ability.

Franchisees may be **obliged, conscious, ambitious** by their investment

To obliged investors we offer transfer, to conscious investors we offer coaching, to ambitious investors we don’t sell franchise

BENEFITS OF BUYING FRANCHISE FROM F&M

Franchisees have three benefits by advising F&M representatives

- **Expertise** – Expert F&M representatives give actual market information, inform about transfer sales. Franchisee can take franchise seminar or franchise coaching, can consult about franchise agreement with symmetry test, about transfer with store analysis.
